

# JACODESMATH

Journal of Algebra, Combinatorics,  
Discrete Structures & Applications

## CALL FOR PAPERS

**Guest Editors:**

**Nuh Aydin**

Kenyon College

**Bahattin Yildiz**

Northern Arizona University

### Special Issue on Algebraic Coding Theory: New Trends and Its Connections

Topics include, but not limited to, recent trends in coding theory, quantum codes, DNA codes, code-based cryptography, computational complexity.

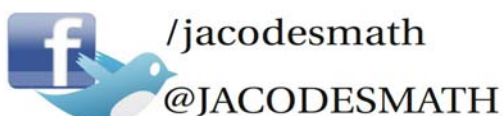

Original and high quality articles are invited. Survey articles on timely topics will be considered as well. Submissions will go through a rigorous but swift peer review process of the journal standard procedure.

*When submitting please choose "Special Issue in Algebraic Coding Theory: New Trends and Its Connections".*

Deadline for submission:  
May 31, 2019

Special issue date to appear:  
January 2020

Journal of Algebra, Combinatorics, Discrete Structures & Applications is indexed by MathScinet, Zentralblatt, DOAJ, EBSCO, Scopus. Currently, it is under consideration of Web of Science.

Electronic Submission: <http://www.jacodesmath.com>
